

EMMA WU

Data Science • Machine Learning & Generative AI • Marketing & Business Intelligence

La Jolla, CA | (858)888-1696 | Emma.Wu@radu.ucsd.edu | [linkedin.com/in/emma-wu0719/](https://www.linkedin.com/in/emma-wu0719/)

EDUCATION

Master of Science in Business Analytics, Rady School of Management 08/2024 - 12/2025
University of California San Diego, La Jolla, CA

- 2024 UC San Diego J. Yang Scholar
- Relevant Courses: Fraud Analytics/Web Mining & Recommender Systems/SQL & ETL/Customer Analytics & AI/Marketing Analytics/Experiments for Business Analytics/Business Analytics Consulting/Analyzing Unstructured Data

Bachelor of Science in Fashion Marketing 09/2020-06/2024
Fu-Jen Catholic University, New Taipei City, Taiwan

- GPA: 3.79/4.0
- Distinctive Award for BS Degree Thesis
- 2 Academic Excellence Awards (Top 3 in class in semester)
- Relevant Courses: Consumer Behavior Management/International Finance/Statistics/Marketing Research

EXPERIENCE

Business Analyst (Capstone Project), TVision, Boston, MA 03/2025 - 06/2025

- Analyzed 10,000+ rows of historical data across CTV and Linear platforms to identify audience segments, behavioral trends, and key attention metrics for campaign optimization
- Estimated future attentive viewing rates using ARIMA and SARIMAX, improving campaign planning accuracy by incorporating demographic and time-based patterns
- Delivered an interactive Tableau dashboard with filterable KPIs and overlap segmentation, allowing planners to measure incremental reach and refine strategy based on performance

Data Analysis Internship, MIRDC - Optical & Semiconductor Equipment Industry Office, Taipei, Taiwan 09/2023 - 06/2024

- Collected and analyzed data using statistical methods to transform raw information into actionable insights, enabling data-driven decision-making, and optimized project timeline
- Developed 50+ data visualizations to drive decision-making and collaborated with stakeholders to address key business challenges, boosting project success rates by 10%
- Managed English and Mandarin translations, facilitated cross-lingual communication for over 20+ client accounts, contributing to a expansion of international customer base

Student Tutor, Qing-Xue Language & Science Learning School, Taipei, Taiwan 01/2021 - 09/2022

- Delivered presentations on academic collaborations and project outcomes to clients, translating complex research into practical business solutions and contributing to an increase in client partnerships
- Established effective communication channels between students and teachers, promoting collaboration and resolving academic concerns. Led to a reduction in response time to student queries by 30%
- Guided students in solving complex academic problems, fostering critical thinking and independent learning, helping 80% of students achieve higher grades in challenging subjects

PROJECTS

University of California, San Diego, Big Data Project, Airline Operations & Passenger Satisfaction Analysis 10/2024 - 12/2024

- Created a real-time review analysis system using web scraping and machine learning (LDA, sentiment analysis) to process 10,000+ airline reviews and extract key customer insights
- Performed predictive modeling on flight delays, examining 5+ external factors (weather, airport traffic, aircraft age, etc.) to uncover trends, identifying seasonal trends and inefficiencies
- Delivered data-driven recommendations to improve airline efficiency, delay management, and customer satisfaction by addressing key operational challenges

Fu-Jen Catholic University, Marketing Research, Music Streaming Platform Industry Research 03/2023 - 05/2023

- Explored 2023 music streaming landscape, with a focus on four key apps: Spotify, Apple Music, KKBOX, and YouTube Music
- Identified playlist accuracy as a critical factor in brand loyalty through Pearson chi-square analysis, showing improving recommendation accuracy could boost retention rates by 20%
- Developed data-driven marketing strategies, recommending enhancements to recommendation algorithms could increase customer engagement and brand loyalty, potentially driving a 10-15% increase in platform user retention

SKILLS

- **Programming & Analytical Tools:** Python, SQL, R, Git, Jupyter Notebook, A/B testing, Hypothesis Testing, Chi-square analytics, Uplift Modeling
- **Data Engineering & Visualization:** ETL, Data Wrangling, Data Pipeline Design, Relational Databases, Snowflake, CSV Parsing, Tableau, Power BI
- **Business & Communication:** Google Analytics, CRM, SQL, Excel, Google Workspace, Microsoft Office Suite
